– Apolo Ohno

The moment your skate first touches the ice, you feel it.

That rush of adrenaline. That surge of exhilaration.

You cannot deny the energy of ice skating—the combination of imagination, positivity, and bravery. Oh, and it’s fun. So much fun.

The more we skate, the more we realize we are learning something bigger. We learn the joy of getting better every time we try something new. We learn that every time we fall, we get right back up. We learn that great challenges can be overcome to achieve greatness. These are more than lessons in skating; they are lessons in life.

Welcome. This is *Learn to Skate USA*.

“I remember the great times we all had learning but in the end we played for the love of the game and to have fun while improving our skills.”
